

StarMaths

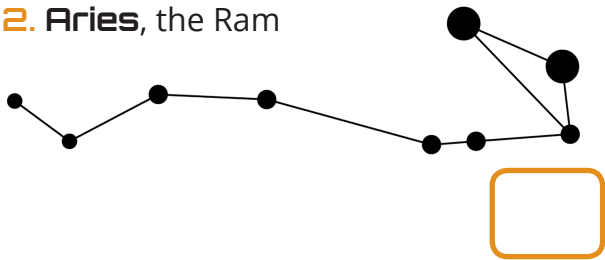

Different constellations have different numbers of stars in them. On StarDisc, the round dots are the stars and planets and each constellation has lines to join up all the stars and planets in it.

Count the number of stars in these constellations. We've done the first one for you.

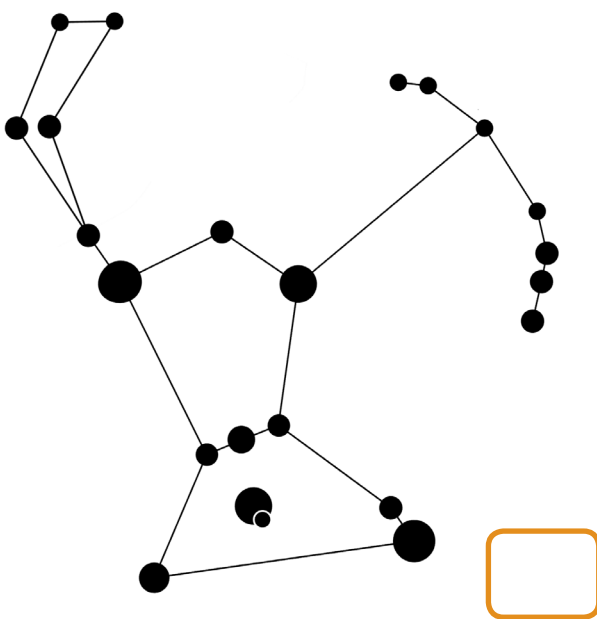

1. Libra, the Scales

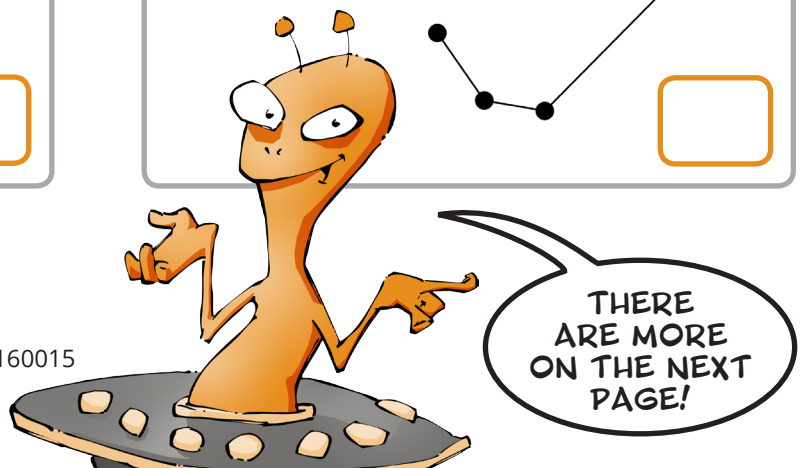

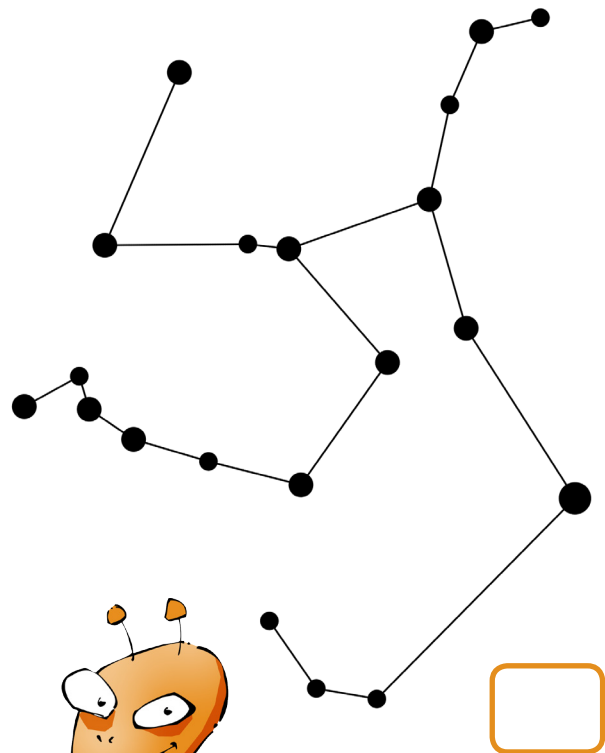

2. Aries, the Ram

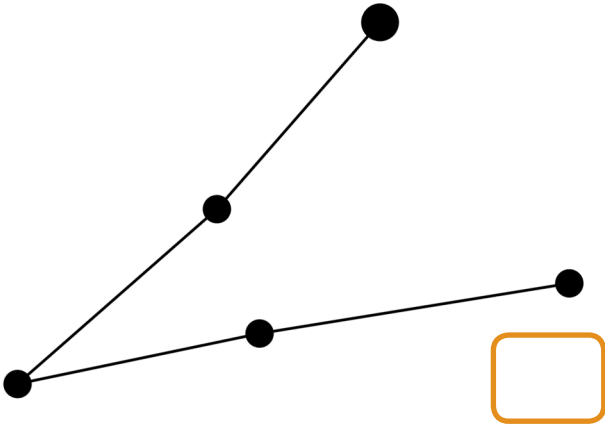

3. Orion, the Hunter

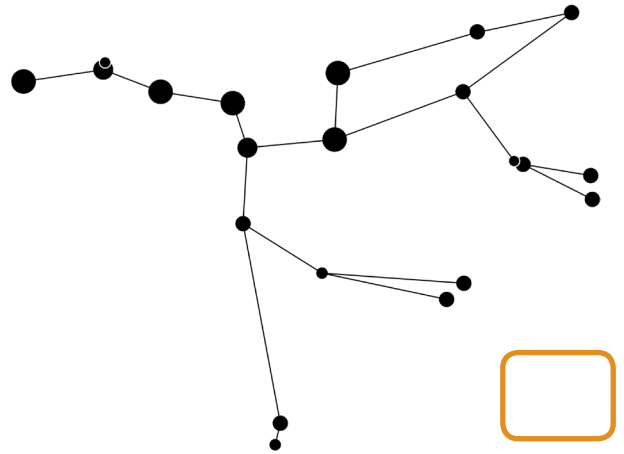

4. Hercules

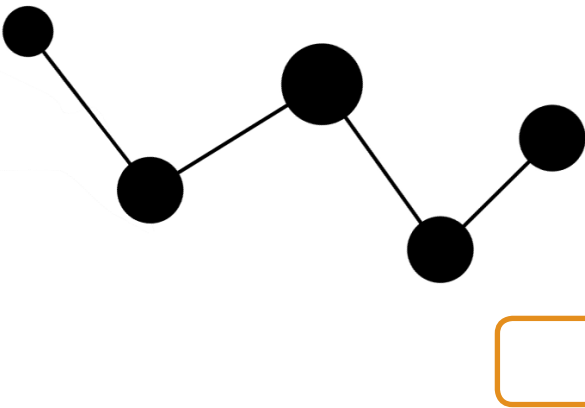

5. Pisces, the Fish

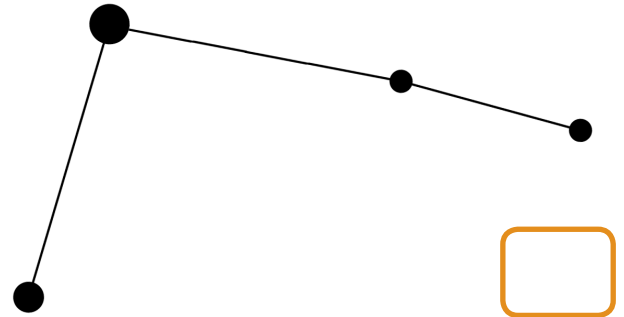

6. Ursa Major, the Great Bear

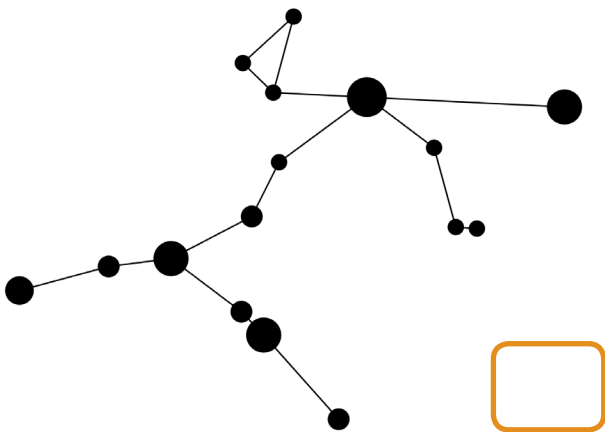

7. Cassiopeia, the Ethiopian Queen

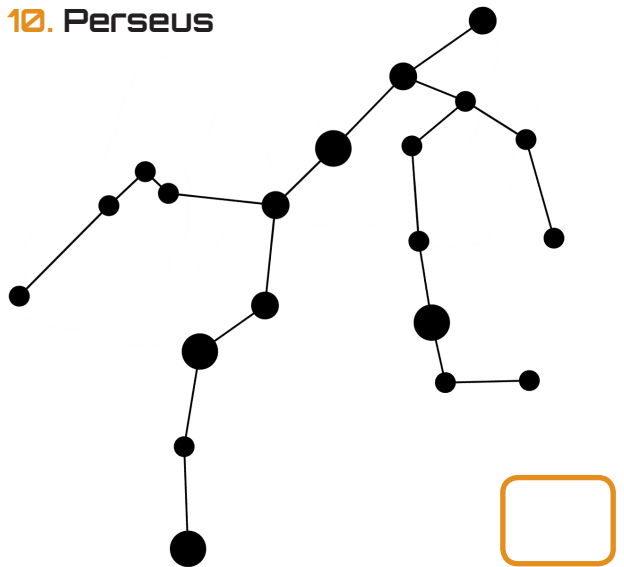

8. Microscopium, the Microscope

9. Canis Major, the Great Dog

10. Perseus

CAN YOU FIND
A CONSTELLATION THAT
HAS THE SAME NUMBER
OF STARS AS
YOUR AGE?
